

Not every one needs as finished a look as these houses can create and your style may be a little more casual. **Sportiva** can add special elements to your wardrobe giving your active wear a mainstream appeal and **Sweaterworks** have the most delightful and original pieces to put your daywear staples into class of their own.

One of the most important and often hardest times of a woman's fashion life happens during Pregnancy. **Glow** boutique specializes in adorning each mother-to-be with the most glamorous and comfortable fabrics and styles to make her shine throughout this special time. So treat yourself and show off a little... you deserve to!

The Ultimate Way to Cap Off your Own Style Though, is with the Right Accessories!

This spring season is about to explode on to the scene and I haven't seen so much glamour on glamour in a long time. The trend is normally to match everything and tie it all together with a theme, but to reflect what's really going on its time to use your accessories to start everyone talking.

"Look at her shoes", they'll say or "wow, check out the bag" and "can that neckpiece get any bigger"!

These days even you eyewear is making a statement. Worn far more confidently with so much to choose from and necessary in today's climate they too are a big fashion must have that you will notice evolving with all the fashion trends. **Main Street Eye Care** has an extensive and exclusive selection for anyone including the discerning fashionista.

Beach Road

Contrast, Mixing it up and Overstating it is Good!

The silhouette is what's important to define with the perfect outfit and accessorizing it with bold and avant-garde shapes and colors is where it is at.

You may wish to acquire the impeccable services of, **Minzenmays, Tiare Black Pearl** of Mornington and **Gouzlan** of Mount Eliza all with their own unique pieces you can get the perfect couture jewelry that will accompany your attire to a 'T'.

This year you will see more looking at feet than heads during the spring racing carnival as the shoes will be a little more prominent than the hats. If you pass the likes of **Lilly belle** and **Invogue shoes** in Mornington you will probably want to work your outfit around you footwear. **Big bold and beautifully embellished shoes will steal the limelight and that's not so true about your hat!** Headwear will be understated elegant, bejeweled, florally feminine and very seductive and get ready girls as it will finally be ok to wear sequins during the day.

Yes, be daring and add a little bit onto all areas whether it's a bag or dress detail, shiny shoes, body art jewelry or on your headpiece. I can design many exquisite accessories for any occasion and help you achieve your total look from hats, gloves shoe clips and more. I now also have a new Bridal studio in Tyabb and would love to see soon.

So enjoy the all the upcoming fashion events, the fabulous ambience of shopping on the Peninsula and discovering the new you for spring.

- Cheers,
Annette Sanfilippo
