## Passion for Shoes

It has been a very smooth and exciting transition for the new owner of Invogue Footwear. Simone Nicholas took over the business just weeks ago and thanks to the help of previous owners Sally Trezise and her father Allen O'Halloran everything has fallen into place.

After travelling and working for ten years overseas, Simone has decided to settle down on the Peninsula with her partner Chris and two small children Jacob and Luca. "Life is hectic but couldn't be better".
