

Beautyrest®

featuring:
gel

The legendary motion separation and conformability of the Beautyrest® mattress meets the advanced performance of Gel technology.

The cool and easing pressure relief system.

The Simmons Beautyrest Gel specialises in relieving pressure on your body.

As pressure increases (under hip and shoulders) the gel relieves and opens up the capillary blood flow allowing your body to reach the deeper delta sleep.

As Simmons Beautyrest Gel cradles your body every pressure point is relieved whether you sleep on your back, side or stomach. Offering all over pressure relief for a better nights sleep.

Bedshed Mornington Superstore.
