Passing Savings to Clients

The demographic of the Carpet world are changing to keep up with the economic changes. Many customers may not be aware, Carpet World is a manufacturer and importer of carpet, timber, vinyl and yarn. This allows passing savings to their clients. Their latest product, which is out selling their traditional wool and sisal is a solution dyed nylon. This product offers 15-year warranty on wear and fading, it is also the easiest carpet on the market for cleaning. Rather than scotch guard or stain master be sprayed onto the carpet, from stage one the process is built into the

yarn. They offer this in a commercial quality at a domestic price in a variety in a colour palettes and a range of styles.

In timbers they are very excited about the wide plank oiled timber. This gives the opposite appearance to polished boards. The look is very distressed with lots of character, easy to maintain needing very low maintenance. All Carpet World stores are independently owned and operated. **Come and view the latest range at 205 Tyabb Road Mornington, Open 7 Days.**
