LOCALS | *at Leisure*

The Mornington Railway has been working on a new product for some time, Driver Experience. The Diesel Driver Experience course allows a guest to live childhood dreams of driving a locomotive. No previous railway knowledge or experience is required as the basics of driving a mainline diesel locomotive are taught by a select group of experienced drivers.

Availability of the Driver Experience product will initially be the afternoons of any Saturday or some Sunday's (non running weekend Sundays). The cost of this unique product is \$700.

The day for the guest driver commences at 11am when he/she signs on with the Mornington Railway experienced driver and fireman and meets in the railway meeting room for an initial safety briefing. The Introduction and Safety Booklet which was sent to the guest driver in anticipation for the day will be reviewed. Time is also allocated here for

lunch provided by Moggy's Café for the guest driver, family and friends, if required.

The guest driver and experienced Mornington Railway crew start the locomotive at approximately 12.30pm.

At the conclusion of the day the guest driver will be presented with a certificate of achievement.

The guest driver may invite a limited number of family members/friends to ride on the train for the day with one of our friendly conductors. Lunch can be provided for the family/friends of the guest driver at an additional cost. Also included in the package is a 12 month membership of the Mornington Railway Preservation Society (subject to approval).

To book, customers just have to call 1300 767 274, and arrangements will be made for completion of the formal application, payment, booking of the train and organisation of volunteers for the day.
