

VERAISON RESTAURANT is surrounded by indigenous bush land with a lake brimming with wildlife. Heritage Bluestones feature throughout the property - remnants from the bluestone laneways of Melbourne.

As you drive in you are captured by the detail of the beautiful native landscape. Veraison's owner and local chef for more than 17 years, Mark Poulter, knows the produce driven diversity of the region. Along with the organic 'open kitchen garden' Veraison Restaurant delivers modern regional influenced cuisine.
